Face Recognition I

COMP 388-002/488-002 Biometrics

Daniel Moreira

Fall 2023

LOYOLA
UNIVERSITY CHICAGO

Today you will…

Get to know
Reasons to use faces for recognition.
How faces compare to fingerprints.

Today’s attendance

Please fill out the form

LOYOLA UNIVERSITY CHICAGO

Assignment and Project

Assignment 2
Due on Monday 10/16

Project
Presentations on 12/04

Fingerprint Recognition

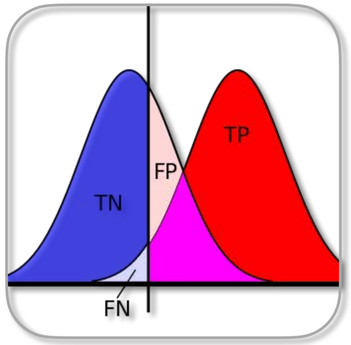
Other Traits' Recognition

Ethical Aspects of Biometric Recognition

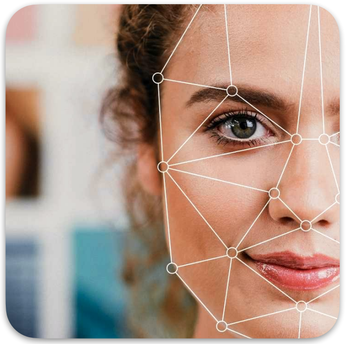
Iris Obfuscation

Course Overview

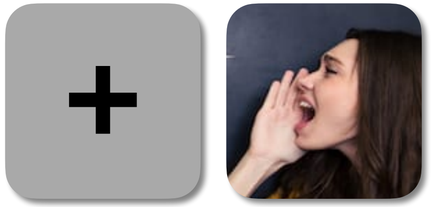
Content



Basics
Concepts
Metrics
Metric implementation



Core Traits (3)
Concepts
Baseline implementation
Data collection
Evaluation
Attacks
Assignments



Alternative Traits and Fusion
Concepts

Invited Talks (2)
State of the art
Future work

Why Faces?

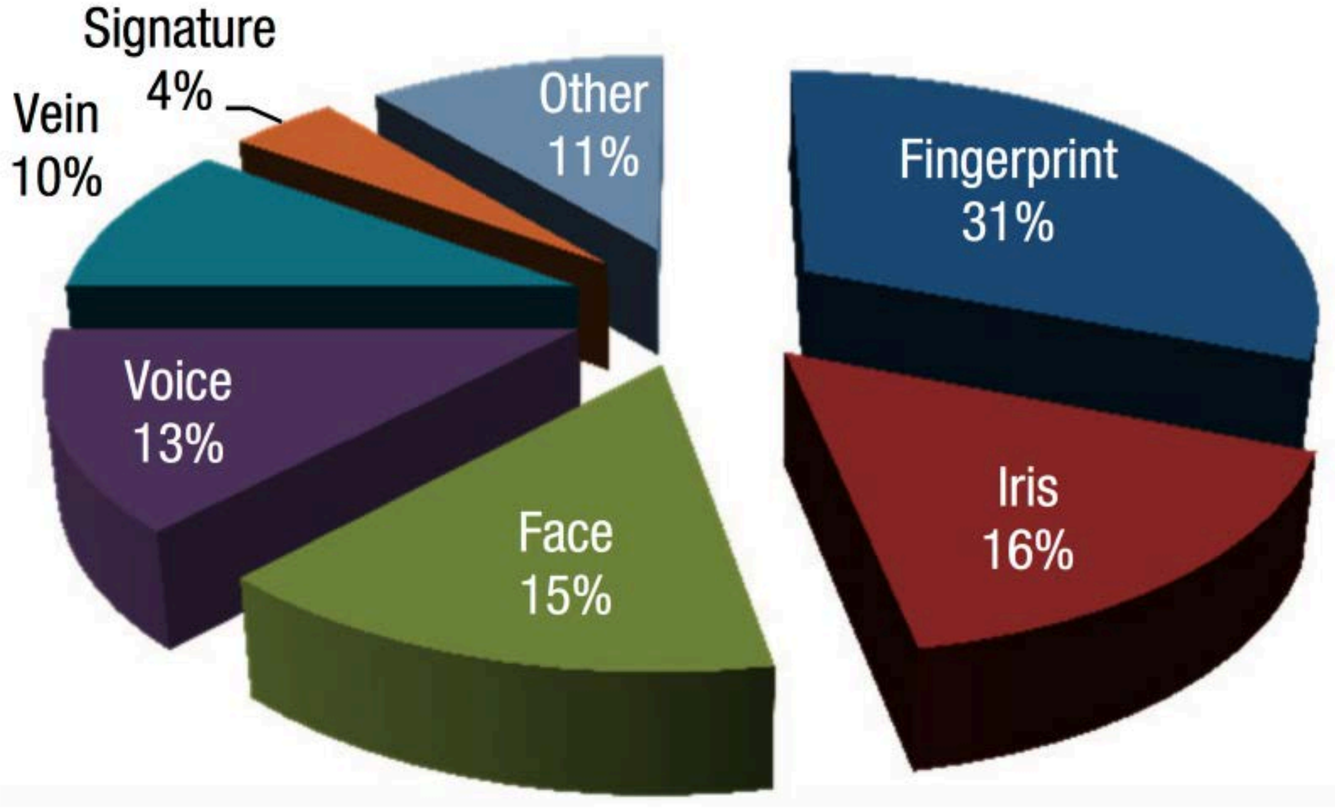
Market



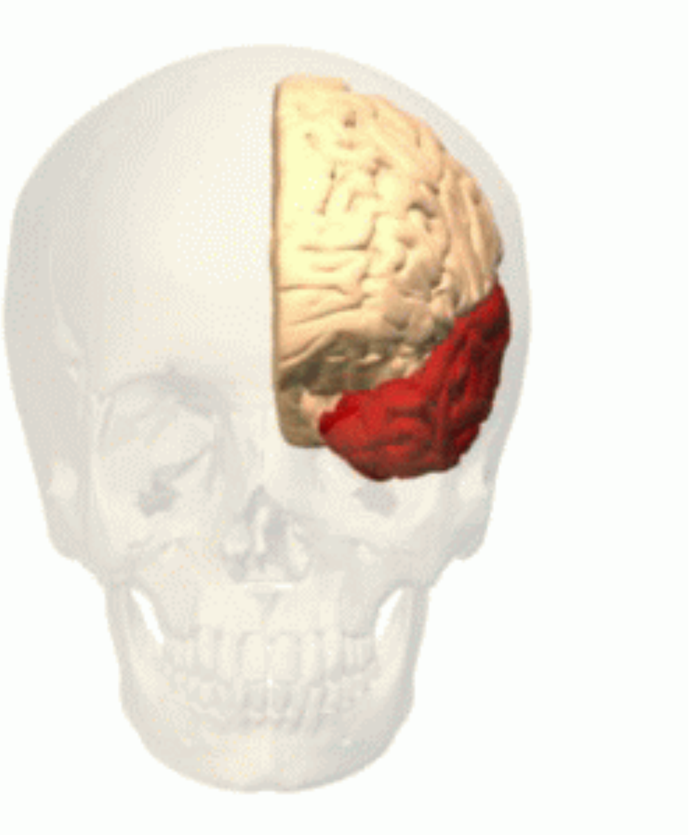
Source: Mani and Nadeski, *Processing solutions for biometric systems,* Texas Instruments, 2015

Why Faces?

Face recognition is an innate ability

Temporal cortex
Active in monkey's brains
whey they are presented with faces.

Prosopagnosia
Lost ability to recognize faces
when the temporal cortex is damaged.
Affected folks can still recognize objects.



Why Faces?

Who is she?

How different from the other one?

Why Faces?

Who is she?

How different from the other one?

Why Faces?

Margaret Thatcher Illusion
Peter Thompson

Why Faces?

Face recognition is an innate ability

Facial Pareidolia
It is natural for us to perceive faces on random places.

Fingerprints vs. Faces

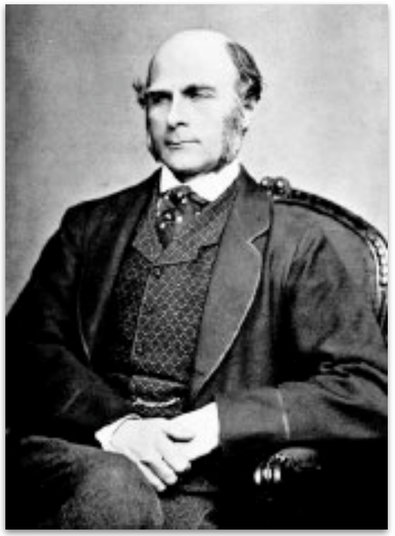
Uniqueness (2/8)
How likely two or more individuals will present the same trait?

Source: John Daugman Lecture Notes, 2018



Galton's probability of 2 people presenting the same fingerprint: 1 in 64 billion.

Identical twins.

Identical Twins?

Lecture Notes, 2018

Unrelated.

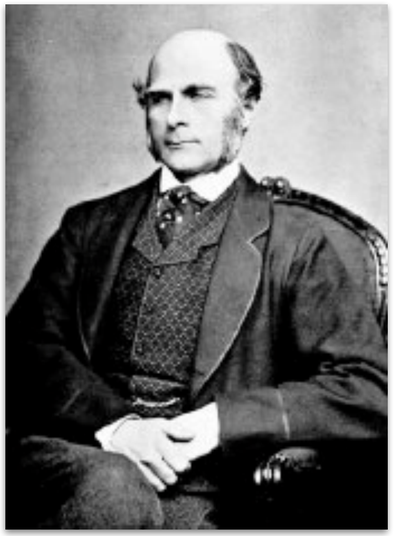
Completely unrelated subjects.

Source: John Daugman Lecture Notes, 2018

Fingerprints vs. Faces

Uniqueness (2/8)
How likely two or more individuals will present the same trait?

Source: John Daugman Lecture Notes, 2018

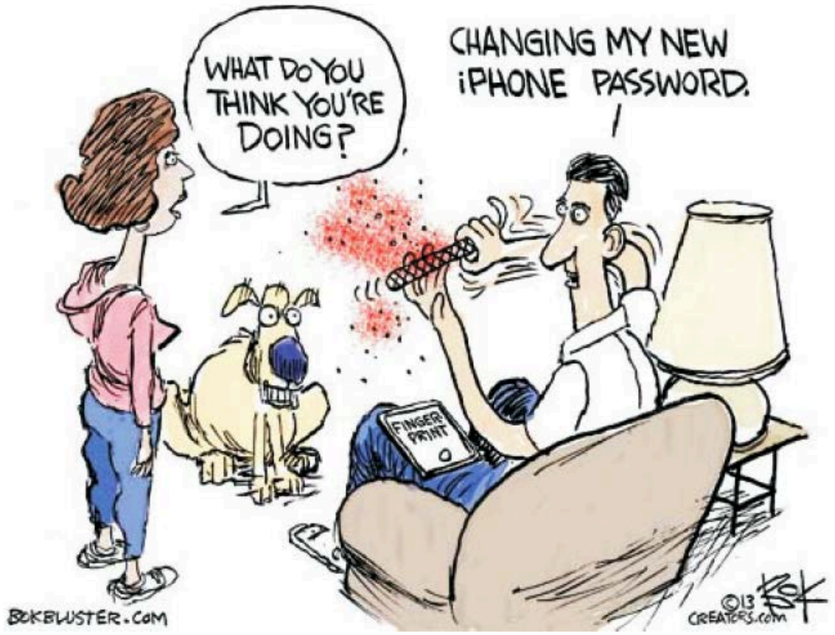


Galton's probability of 2 people presenting the same fingerprint: 1 in 64 billion.

Identical twins.

Fingerprints vs. Faces

Permanence (3/8)
How easily does the trait change?



You cannot easily change your fingerprints.

But your face **will** change.

LOYOLA UNIVERSITY CHICAGO

Fingerprints vs. Faces

Permanence (3/8)
How easily does the trait change?

Aging

Permanence (3/8)
How easily does the trait change?

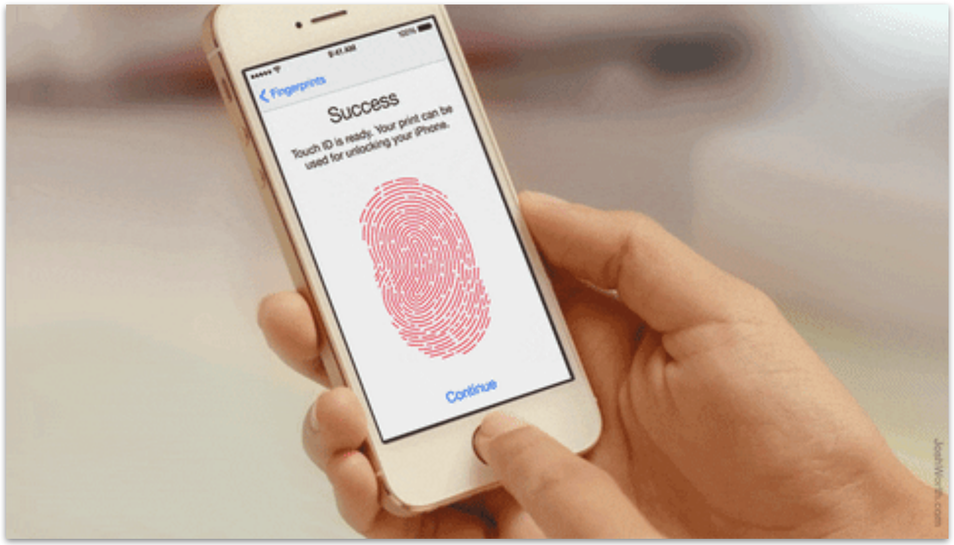
You cannot easily change your fingerprints.

But your face **will** change.

LOYOLA UNIVERSITY CHICAGO

Fingerprints vs. Faces

Measurability (4/8)
How easy is it to acquire and digitize the trait?



https://www.youtube.com/watch?v=uQHqZNyXoBQ

Fingerprints vs. Faces

Measurability (4/8)
How easy is it to acquire and digitize the trait?

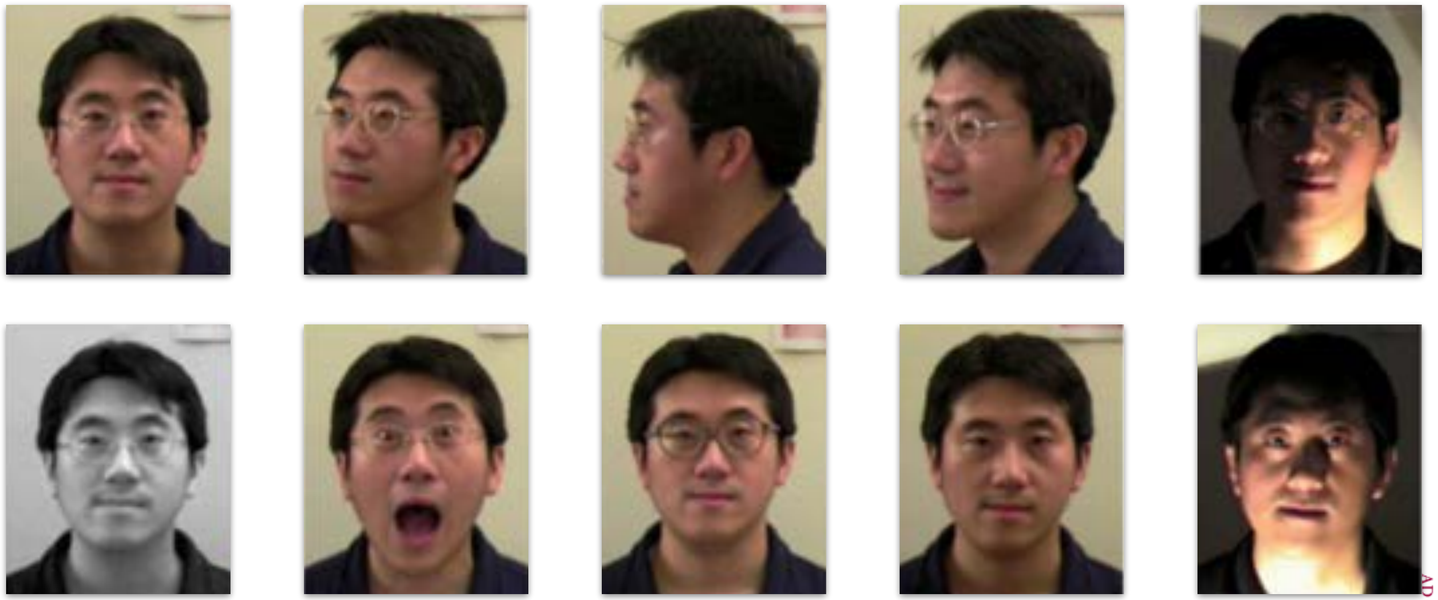
Unconstrained Acquisition

https://www.nist.gov/system/files/documents/itl/iad/ig/05771424.pdf

Fingerprints vs. Faces

Measurability (4/8)
How easy is it to acquire and digitize the trait?

Large Intra-Class Variation
Different pose, illumination, expression, accessories (e.g.. glasses), resolution.



Hsu
Face detection and modeling for recognition
PhD Thesis, MSU, 2002.

Fingerprints vs. Faces 🏆

Acceptability (5/8)
Will individuals collaborate during data collection?

https://www.youtube.com/watch?v=Qt79QAwgi80

https://www.youtube.com/watch?v=BYN4oF_bi4c

Fingerprints vs. Faces

Acceptability (5/8)
Will individuals collaborate during data collection?

Privacy Concerns

Robert Downey Jr.

Scarlet Johansson

Fingerprints vs. Faces

Acceptability (5/8)
Will individuals collaborate during data collection?

Privacy Concerns

Latent Fingerprint

Whose latent fingerprint is this?
Robert's or Scarlet's?

Is it the fingerprint of a man or woman?
Is it the fingerprint of a younger or older person?

Fingerprints vs. Faces

Acceptability (5/8)
Will individuals collaborate during data collection?

Privacy Concerns

“Latent Face”

Whose face is this?
Robert's or Scarlet's?

No way it is Scarlet’s. This is a man.
No way it is Robert. This is an older man.

Fingerprints vs. Faces

Acceptability (5/8)
Will individuals collaborate during data collection?

Privacy Concerns
Which trait helps to recognize Scarlet quicker?

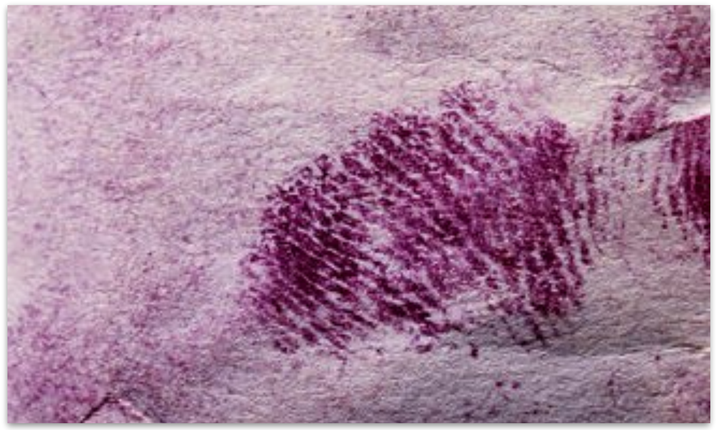
Latent Fingerprint

“Latent Face”

Fingerprints vs. Faces

Acceptability (5/8)
Will individuals collaborate during data collection?

Privacy Concerns
Which trait favors **covert deployment**?



Latent Fingerprint

“Latent Face”

Fingerprints vs. Faces 🏆

Circumvention (6/8)
How easy can the trait be forged or imitated?

https://www.youtube.com/watch?v=KdycMYILTr0

We are not there yet!

Fingerprints vs. Faces

Circumvention (6/8)
How easy can the trait be forged or imitated?

Limitations

https://www.wired.com/story/10-year-old-face-id-unlocks-mothers-iphone-x/

Fingerprints vs. Faces

Circumvention (6/8)
How easy can the trait be forged or imitated?

Attacks
Presentation Attack.

https://www.youtube.com/watch?v=BGgQ9woZQOg

Fingerprints vs. Faces

Explainability (7/8)
How easy is it for the everyman to understand the trait comparison?

Same fingerprint?

You need to know fingerprint features.

Everybody is an expert
in face recognition.

Fingerprints vs. Faces

Performance (8/8)
How good is the trait quantitatively according to objective metrics?

Face Recognition Improvement
Methods are improving quickly.
Benefits from deep learning.
