What is Biometrics?

8.2 billion people

Who is this person? (*Identification*)

Is this person Jane Doe? (*Verification*)

Biometrics aims to ***identify or verify*** an individual's claimed or denied identity based on their *physical, chemical, or behavioral* traits.

What is Biometrics?

In this course, we aim at **computer-aided Biometrics.**

We'll focus on **software solutions** rather than hardware.

But we'll get to use some **devices**, I promise.

What is Biometrics?

Why computers?

What is Biometrics?

Why computers?

High throughput
Repeatability
Predictability
Accountability

What is Biometrics?

Identity verification through:

A unique trait
of yours.

physical

chemical

behavioral

Not something
you **have**.

Not something
you **know**.

Why use Biometrics?

Consumers prefer biometric authentication to traditional passwords, Visa says

🕒 Jan 6, 2020 | [Chris Burt](#)

CATEGORIES [Biometrics News](#) | [Financial Services](#)

Almost 70 percent of U.S. shoppers did not go through with an online purchase because they either forgot the password, couldn't log in or couldn't receive a one-time passcode, according to research conducted by [Visa](#), while another report from Verizon found that as many as 80 percent of data breaches are caused by compromised and weak passwords.

<https://www.biometricupdate.com/202001/consumers-prefer-biometric-authentication-to-traditional-passwords-visa-says>

Why use Biometrics?

A federal judge Tuesday sentenced an apologetic Ohio man to two years behind bars and one year of probation for falsely claiming to be a long-missing Illinois child.

Confronted with **DNA** results proving he wasn't Pitzen, Rini said he had watched a story about the missing boy on ABC's "20/20" and wanted to get away from his own family, the FBI said.

cbsnews.com/news/brian-rini-timothy-pitzen-man-who-claimed-to-be-long-missing-boy-gets-two-year-sentence-apologizes-to-boys-family/

Why use Biometrics?

Biometrics is safer
But not absolutely safe!

<https://www.bbc.com/news/world-latin-america-21756709>

A Brazilian doctor faces charges of fraud after being caught on camera using silicone fingers to sign in for work for absent colleagues, police say.

Why use Biometrics?

Biometrics is safer
But not absolutely safe!

<https://www.wired.com/story/10-year-old-face-id-unlocks-mothers-iphone-x/>

Why use Biometrics?

Biometrics is safer
But not absolutely safe!
Even humans fail.

<https://www.nytimes.com/2004/11/17/politics/report-faults-fbis-fingerprint-scrutiny-in-arrest-of-lawyer.html>

WASHINGTON, Nov. 16 - The Federal Bureau of Investigation wrongly implicated an Oregon lawyer in a deadly train bombing in Madrid because the F.B.I. culture discouraged fingerprint examiners from disagreeing with their superiors, a panel of forensic experts has concluded.

Biometrics Abuse

Function Creep

Widening of the use of a technology beyond the purpose for which it was originally intended.

US typical example: SSN

The same may happen with Biometric systems.

Biometrics Abuse

Function Creep

In 2001, Colorado state was caught selling its DMV* face and fingerprint databases to corporations.

*Department of Motor Vehicles

Biometrics Abuse

Segregating Profiling

The screenshot shows the Hindustan Times website interface. At the top, the logo 'hindustantimes' is on the left, and 'Sign In' is on the right. Below the logo, the date 'Saturday, Jan 11, 2020' and location 'New Delhi 16°C' are displayed, along with an 'e-paper' link. A navigation bar includes 'discover' and various categories like 'india cities opinion world cricket entertainment election trending videos tech'. A search bar is on the right. The main headline reads 'Linking benefits for AIDS patients to Aadhaar triggers privacy concerns'. Below it, a sub-headline states: 'Many patients are avoiding going to hospitals and ATR centres fearing mandatory submission of their Aadhaar number could lead to disclosure of their identity, inviting social stigma.' At the bottom left, a box labeled 'BHOPAL' indicates the location, and 'Updated: Apr 03, 2017 12:34 IST' is shown on the right.

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Universality (1/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Universality (1/8)

Does everybody have the trait?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Uniqueness (2/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Uniqueness (2/8)

How likely two or more individuals will present the same trait?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Uniqueness (2/8)

How likely two or more individuals will present the same trait?

Biometric Traits

What do we want to consider?
Some traits might be more suitable than others.

Permanence (3/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Permanence (3/8)

How does the trait change over time?

How can diseases affect the trait?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Measurability (4/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Measurability (4/8)

How convenient is it to acquire and digitize the trait?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Acceptability (5/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Acceptability (5/8)

Will individuals collaborate during data collection?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Circumvention (6/8)

<https://www.youtube.com/watch?v=SIII8L43nng>

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Circumvention (6/8)

How easy can the trait be forged or imitated?

<https://www.youtube.com/watch?v=SIII8L43nng>

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Explainability (7/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Explainability (7/8)

How easy is it for the everyman to understand the trait comparison?

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Performance (8/8)

Biometric Traits

What do we want to consider?

Some traits might be more suitable than others.

Performance (8/8)

How good is the trait quantitatively according to objective **metrics**?
(we'll see them soon)

Activity

**forms.gle/
iVurUMtQs86gZZQC9**

and answer the questions.

Biometric Systems

Enrollment

Trait Acquisition

We'll have data-collection classes.
We'll use real-world sensors.

What to observe?

Sensors have different **quality**
(in terms of precision, resolution,
presence of noise, and usability)

Biometric Systems

Enrollment

Trait Enhancement

Noise removal.

Operations to keep only **essential** information (consider universality, uniqueness, permanence, circumvention, and performance).
